## Pricing

While ingredients and supplies influence how much a cake costs, the largest cost is in how much time and skill it takes to decorate your cake.

I will provide a cost based on the specifics of the cake you request. However, to help you estimate, I've provided some typical price ranges.

At the time of your order, I require payment in full. This confirms and reserves your date on my calendar, to ensure I give your cake the time and attention it requires.

**Buttercream Cakes**  
starting at \$7/person

**Fondant Cakes**  
starting at \$9/person

**Rush Charge**  
(less than 1 week notice): 20%

**Delivery & Set Up**  
fee dependant on distance

*These are just estimates. Once I understand your specific cake design, I will provide a specific cost. I am always willing to work to create a confection within your budget.*

Your questions for me:

weddings | birthdays | anniversaries | showers | gender reveals | retirements | corporate events
